INTERNAL COLLEGE INNOVATION CHALLENGE

SMART INDIA HACKATHON 2026

Problem Statements, Team Screening & Institute Selection

Aryan Institute of Engineering & Technology invites student teams to identify a problem statement, build an innovative solution, and participate in the internal evaluation round. Teams recommended by the Institute SIH Committee will be selected for nomination to SIH 2026, subject to official guidelines and available slots.

Software Innovation

Hardware Innovation

Prototype & Pitch

Internal Selection & Qualification Process

How teams will participate, present and qualify for institute nomination.

ARYAN SIH 2026

A Who Can Participate

- Students of Aryan Institute of Engineering & Technology.
- Interdisciplinary teams are encouraged for stronger solutions.
- Team composition, member eligibility and mentor rules must follow the final official SIH 2026 guidelines.
- Each team should choose one primary problem statement and clearly define its proposed solution.

B Required Submission

- Problem statement selection and one-page idea abstract.
- Presentation deck explaining need, users, innovation, technology and impact.
- Architecture, workflow, design diagram or hardware block diagram.
- Prototype, mock-up, simulation or demo wherever possible.
- Team member details and faculty mentor details.

1

Select

Choose a suitable software or hardware problem statement.

2

Form Team

Create a balanced team with relevant technical and presentation skills.

3

Build

Prepare the approach, architecture and prototype or demo.

4

Present

Pitch before the Institute SIH Evaluation Committee.

5

Qualify

Recommended teams are selected for institute nomination.

C Suggested Internal Evaluation Rubric

Evaluation Area	Weight
Problem understanding and relevance	15
Innovation and originality	20
Technical feasibility	20
Prototype / implementation readiness	20
Impact, scalability and sustainability	15
Presentation and teamwork	10
Total	100

D Qualification Decision

- The Institute SIH Committee will evaluate all eligible teams using the announced criteria.
- The qualifying benchmark and number of selected teams will be declared by the institute.
- Selection may consider solution quality, readiness, team capability and compliance with SIH rules.

Important: Final problem statements, submission format, team rules and nomination limits must be verified from the official SIH 2026 portal before final submission.

Software Problem Statements

Shortlisted software-focused ideas for the internal college innovation round.

10 PROBLEM STATEMENTS

PS ID	Problem Statement	Organization	Theme
SIH25001	Smart Community Health Monitoring and Early Warning System for Water-Borne Diseases in Rural Northeast India	Ministry of Development of North Eastern Region	MedTech / HealthTech
SIH25002	Smart Tourist Safety Monitoring & Incident Response using AI, Geo-Fencing and Blockchain Digital ID	Ministry of Development of North Eastern Region	Travel & Tourism
SIH25004	Image-based Breed Recognition for Cattle and Buffaloes	Ministry of Fisheries	Agriculture
SIH25005	Image-based Animal Type Classification for Cattle and Buffaloes	Ministry of Fisheries	Agriculture
SIH25048	Gamified Learning Platform for Rural Education	Government of Odisha	Smart Education
SIH25049	AI-driven Public Health Chatbot for Disease Awareness	Government of Odisha	HealthTech
SIH25050	Smart Traffic Management System for Urban Congestion	Government of Odisha	Transportation
SIH25101	Remote Classroom for Rural Colleges	Government of Rajasthan	Education
SIH25102	AI-based Student Dropout Prediction & Counseling System	Government of Rajasthan	AI
SIH25103	ERP-based Integrated Student Management System	Government of Rajasthan	Smart Automation

Teams should validate the exact scope, expected deliverables and official problem statement details before beginning implementation.

Hardware Problem Statements - Part 1

Shortlisted hardware, embedded, energy and field-deployment ideas.

6 OF 12

PS ID / Category	Problem Statement	Organization	Theme
SIH25003	Low-cost Smart Transportation Solution for Agricultural Produce in North East	Ministry of DoNER	Logistics
SIH25072	Solar-powered Dewatering System for Mining Operations	Mining Sector	Renewable Energy
SIH25109	Smart Agriculture Improvement System	Agriculture Department	Agriculture
SIH25115	Water-borne Disease Management in Rural Areas	Health	HealthTech
MHA Hardware	Extreme Weather Surveillance System	Ministry of Home Affairs	Disaster Management
MHA Hardware	Satellite-integrated Handheld Radio	Ministry of Home Affairs	Communication

Hardware teams should include estimated components, cost, block diagram, implementation plan, safety considerations and a demonstrable prototype or simulation plan.

Hardware Problem Statements - Part 2

Advanced agriculture, renewable energy, autonomous and cyber-security ideas.

6 OF 12

PS ID / Category	Problem Statement	Organization	Theme
MoA Hardware	Crop Maturity Prediction Device	Ministry of Agriculture	Agriculture
MoA Hardware	Low-cost Cotton Picking Machine	Ministry of Agriculture	Agriculture
MoA Hardware	Advanced Jute Retting Machine	Ministry of Agriculture	Agriculture
Govt. Odisha	Renewable Energy Monitoring System for Microgrids	Government of Odisha	Renewable Energy
MHA Hardware	Autonomous AI Drone for Border Surveillance, Disaster Response, and Search & Rescue Operations	Ministry of Home Affairs	Autonomous Systems / Robotics
MeitY Hardware	AI-based Cyber Threat Detection and Autonomous Network Attack Blocking System for Critical Infrastructure	Ministry of Electronics & Information Technology (MeitY)	Cyber Security

Hardware teams should include estimated components, cost, block diagram, implementation plan, safety considerations and a demonstrable prototype or simulation plan.
